○ Harshit Choudhary

OBJECTIVE

Highly motivated computer science graduate seeking a challenging position in the field of technology. With a solid foundation in programming, problem-solving, and a passion for continuous learning, I aim to contribute to a dynamic team, leverage emerging technologies, and drive innovative solutions that positively impact organizations and society as a whole.

EDUCATION

Shri Shankaracharya Engineering College, Bhilai   **July 2019 - June 2023**
Bachelor of Technology (B. Tech.)
Branch: Computer Science & Engg. (CSE)

Deepti Convent Higher Secondary School, Jagdalpur   **July 2018 - June 2019**
HSC (CBSE)

PROJECTS

E-Store

- A modern solution that enables small shops to expand their business online and connect with customers more effectively. It provides a convenient platform for users to browse and purchase products while allowing administrators to manage orders and streamline their operations.
- Developed the e-commerce website by leveraging the Angular framework for the front end and integrating Firebase and several APIs for the backend functionalities.
- Integrated Telegram's APIs to provide real-time communication and notification features. It allows the website to send messages and updates to a designated Telegram user.
- **Technologies Used**: Angular 14, HTML, CSS, Javascript, Typescript, Firebase

URL COPY (Browser Extension)

- Developed a browser extension that allows users to manually add input and save it for future reference.
- Implemented a feature in the browser extension to conveniently copy the URL of the current tab, enhancing user productivity.
- Ensured data persistence in the browser extension, enabling saved information to be retained even when the tab is closed.
- **Technologies Used**: HTML, CSS, Javascript

Daily News

- Developed a dynamic and real-time news delivery platform utilizing HTML, CSS, JavaScript, EJS, and Node.js, leveraging the News API as the primary data source.
- Implemented a robust search functionality within the platform, enabling users to find news articles based on specific requirements and categories such as business, sports, technology, and more.
- Created an intuitive and seamless user experience, ensuring users can effortlessly stay up-to-date with the latest news through the platform's user-friendly interface.
- **Technologies Used**: HTML, CSS, JavaScript, EJS, and Node.js

SKILLS

Languages: HTML CSS, Javascript, Typescript, C++

Framework: Angular

Version Control System & Repositories: Git, GitHub

IDE/GUI Tools: Visual Studio Code, Postman

CERTIFICATIONS

- HTML, CSS & JavaScript Certification, Udemy
- The Complete 2022 Web Development Bootcamp, Udemy
- JavaScript (Basic) Certificate, HackerRank
- Problem-Solving (Basic) Certificate, HackerRank
